HIGHWAYS ENGLAND COMMON INDUCTION COURSE

INTRODUCTION

The Highways England Common Induction course provides a common Health & Safety site induction across all areas of the Highways England's Strategic Road Network (SRN).

WHO SHOULD ATTEND

For all those visiting or working on the Highways England Strategic Road Network (SRN), this course is recognised as good practice and is mandatory for some organisations.

PREREQUISITES

Before candidates can attend this course, they must already hold a MyValidate (Highways England Passport) ID number. Without the ID number, LANTRA will not issue a candidate with a Certificate for this course. If someone does not have a Highways England Passport Smartcard, Employers/sponsors should apply to Mitie for a Smartcard for them and be able to provide the ID number before they attend the Course. For further information on how to do this, please contact the Mitie Helpdesk on 0330 726 0225.

AIM

This 1 day course will provide delegates with a basic understanding of health and safety, knowledge of the principle hazards and risks, legislation and best practice, leading to a safer working environment.

One part of future planned cost efficiencies is being delivered through the introduction and implementation of the Highways England Common Induction course. This is a collaborative development to ensure a common standard and best practice, including Safety, Health, Wellbeing and Environment management, across industry and the supply chain. It raises awareness of the significant risks, helping to eliminate repetitive general site inductions on the network.

HOW TO BOOK

We run scheduled courses at our Training Centre in New Southgate, North London and for groups of staff can deliver this course in-house at your organisation's location, providing you have access to the appropriate classroom facilities. To book, please follow the link to our website detailed below, email info@skillstrainingcentre.co.uk or call **020 8619 0939**.

COURSE OBJECTIVES

On completion of the course learners will:

- ▶ Understand what is Customer Service to Highways England and the Supply Chain
- ▶ Understand the main requirements of the Health & Safety at Work Act
- ▶ Gain an overview of Highways England's minimum expectation for working on their strategic road network (SRN)
- ▶ Gain a basic understanding of temporary traffic management
- ▶ Be able to review fatal risks that occur when working on the SRN
- ▶ Be able to identify the essential health and wellbeing points to consider in the workplace
- ▶ Be able to identify and describe main environmental issues found on sites
- ▶ State the impact upon themselves, their lives and their families and friends of a serious accident at work
- ▶ Be able to identify examples of poor behaviour on a works site
- ▶ Be able to describe how H&S knowledge and good working practice can improve behaviour on a works site
- ▶ Successfully undertake End of Course test (Pass mark 75%)

COURSE TOPICS

- ▶ Introduction
- ▶ Working on the network
- ▶ Occupational health and wellbeing
- ▶ Working within temporary traffic management
- ▶ Fatal risks
- ▶ Environmental protection
- ▶ Your personal health and safety commitment

ASSESSMENT

There is an End of Course test requiring a pass mark of 75%. N.B. If a candidate does not have an HE Passport Smartcard, LANTRA will not issue a Certificate.
